Welcome to DeltaCare

DeltaCare is an innovative dental plan that provides you with comprehensive care at a significantly lower cost than most other dental plans—which means great value for you. The plan is unique in its emphasis on preventive services, which are fully covered. DeltaCare works much like a dental HMO, in which you and your family receive all your care from a network of participating dentists. There are no waiting periods for any services. Your coverage begins immediately, so you get the care you need—when you need it.

Using Your Dental Plan

Choosing Your Primary Care Dentist

You and each member of your family covered under DeltaCare must select a Primary Care Dentist (PCD) from the DeltaCare directory.

Please indicate the name and provider number of the PCD in the designated area on your enrollment form. If you do not select a PCD, we will assign one located near your home. To select a PCD, check the Directory of Participating Dentists or our website at www.deltadentalma.com. You can also call the DeltaCare Unit at (800) 327-6277.

Shortly after your enrollment, each member of your family covered by DeltaCare will receive an ID card with his or her PCD’s name and phone number on it. Coverage is effective for all dependents up to age 26.

To change your PCD, simply call our DeltaCare Unit by the 21st day of the month at (800) 327-6277 and let the representative know which DeltaCare dentist you would like as your PCD. The change will be effective at the beginning of the following month. We will send you a new ID card reflecting the change after it becomes effective.

How Your Plan Works

There’s never any paperwork for you to fill out when you visit your PCD or a specialist in the DeltaCare network. Simply provide your dentist with the information that is printed on your ID card. Your dentist will collect any applicable co-payments for services you receive and take care of all the paperwork for you.

When you are in need of specialty services, you may select a specialist from the DeltaCare network or ask your primary care dentist for a recommendation. However, to receive the maximum value from your benefits, you must receive services from a participating DeltaCare specialist.

Out-of-Pocket Expenses

You will be responsible for the co-payments listed on your co-payment schedule, which you will pay directly to the dentist and, where noted, any additional lab fees associated with certain major restorative procedures. Most preventive and diagnostic services are covered at 100%, which means you won’t have any additional out-of-pocket costs on these procedures. Please note there is a $1,000 calendar year maximum on certain specialty services (oral surgery, endodontic services, and periodontic services). If you have reached the maximum amount allowed for these specialty services in a calendar year, the dentist may then charge you his/her usual fee for the services rendered.

Out-of-Network Coverage

(See page 5 for out-of-network orthodontic information.)

DeltaCare provides coverage for out-of-network services; however, the benefits are lower than the coverage we offer when members receive care from a DeltaCare dentist. This means greater out-of-pocket expense for you if you receive services from a non-participating dentist.

$100 deductible: Members who receive care from non-participating dentists must satisfy a $100 annual deductible that applies to all services. Each member who receives care from a non-participating provider must satisfy the deductible before receiving benefits.

Reduced benefits: Coverage for out-of-network services is 20% lower than the co-insurance for an in-network DeltaCare panel dentist. This DeltaCare co-payment schedule does not apply to out-of-network services. Out-of-network benefits will be based on either the dentist’s charge or the maximum allowable fee for the service, whichever is lower. Coverage is only available for those services covered by your DeltaCare plan, and it is subject to the same limitations and exclusions.

If you choose to receive care from an out-of-network dentist, you’ll need to submit a claim form to: Delta Dental, Attn: DeltaCare Unit, PO Box 9695, Boston, MA 02114. We’ll reimburse you directly, and you are responsible for making payment arrangements with your dentist. Claims must be submitted to DeltaCare no later than 12 months from the date of service in order to be considered for payment.
Out-of-Network Orthodontics
Any care you receive from a non-participating orthodontist will be reimbursed at 20% of the maximum allowable fee or the orthodontist-submitted charge, whichever is less. The $100 deductible for out-of-network services will apply unless it has already been satisfied.

Termination of Coverage
You will be responsible for paying for any care you receive after your coverage terminates, and up to the submitted charge if you seek out-of-network treatment. It is up to you and your orthodontist to establish the terms and conditions of payment after coverage terminates. However, if you’ve started an orthodontic treatment plan and decide to continue to receive care from your DeltaCare orthodontist after your coverage terminates, your payments will be based on DeltaCare’s discounted case fee.

DeltaCare Orthodontic Exclusions
Your plan does not cover the following:
Replacement of lost, stolen, or broken orthodontic appliances; interceptive orthodontic treatment; retreatment of orthodontic cases; changes in treatment necessitated by an accident of any kind; surgical procedures incidental to orthodontic treatment; myofunctional therapy; surgical procedures related to cleft palate, micrognathia, macrognathia, or treatment related to temporomandibular joint dysfunctions and/or hormonal imbalance; malocclusions that are so severe they are not amenable to ideal orthodontic therapy; restorative work caused by orthodontic treatment; orthodontic examination and records unless you receive comprehensive treatment; tooth extraction solely for the purpose of orthodontics; orthodontic treatment started before the effective date of your DeltaCare coverage may or may not be covered. Please refer to your Subscriber Certificate.

Frequency Limitations
Frequency limitations reflect the availability of coverage only. It is up to you and your dentist to determine the need and frequency of dental procedures.

In this case, you will be responsible for the difference in cost between the two options as well as the co-payment for the recommended treatment.
